

New Look Same Great Service

Mr. Gary Vanderwal and Mr. Harold Hewlitt are now part of the OK TIRE organization and will continue to offer their high level of service and a full line of quality products to clients.

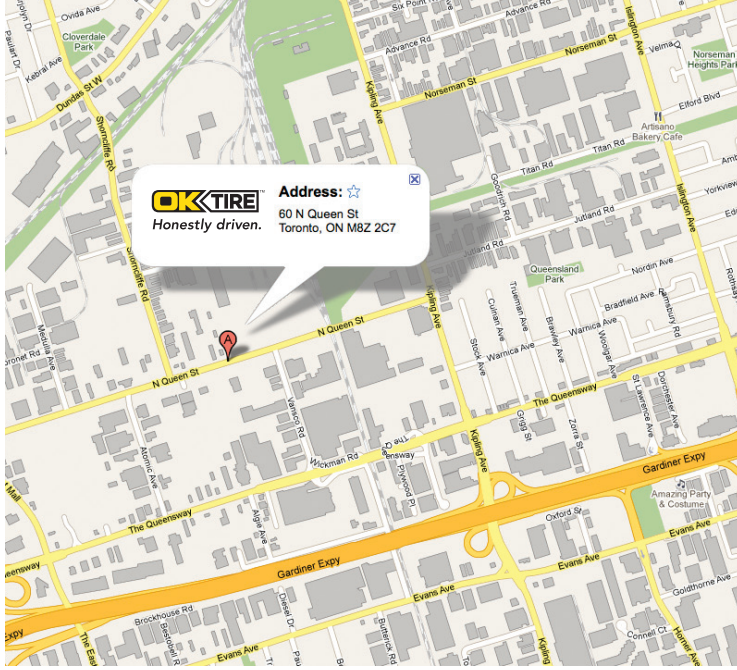

Throughout this summer construction will begin on a new facility at 39 Shorncliffe Road that will offer express lube, commercial tire sales and service, truck and trailer

alignment, spring repair service and mechanical repairs for commercial vehicles. The expected completion time is late fall 2010.

This new facility will make it easier for clients of both WEST END TRUCK CENTRE and OK TIRE-COMMERCIAL to have their vehicles serviced in a faster, more convenient and more efficient manner.

While construction is in progress, all lube services will be performed by our repair centre at 60 North Queen Street. To make appointments for lube services you can call Gary directly at 416-937-1746.

OK TIRETM
Honestly driven.
