

## **BIOGRAPHY OF ARTHUR GOTTLIEB**

Arthur started the Gottlieb Group Inc. in 1999 to advise industry and government on business, regulatory and government affairs strategy. Clients include CRTC, wireline and wireless carriers, cable companies, incumbents and new entrants. Previously, Arthur worked at AT&T Canada as VP Government Affairs and at Rogers Wireless Inc., where in the course of nine years he worked as a network design engineer, Manager of Intercarrier Relations and finally as Director of Intercarrier Relations responsible for managing and directing all intercarrier issues as well as regulatory and government affairs. He started his career at Nortel's digital switching division in 1988, after having graduated from McGill University with a degree in Electrical Engineering.
